## BIG BOAR BATTERIES

From the company that introduced drycell batteries to the motorcycle market place 10 years ago comes Big Boar batteries with the lowest failure rate of any battery in the industry, the most cold cranking amps, and a full one year replacement warranty. Quality and value are the two best words to describe Big Boar.

SOLD EACH

### PART NO.

1-20	The Big Boar 350 battery from Big Boar Products is a totally sealed, maintenance free battery. Measuring 6-7/8" long x 6-1/16" high x 3-5/16" wide, the BB350 has been tested and proven on thousands of big inch and high compression motorcycles for over two years. It has a true 350 cold cranking amps!
1-21	Big Boar 'Mini' 6" long x 5-1/8" tall x 3-1/4" wide. This battery is for custom applications that have limited space. Starts larger engines but <b>does not</b> have a lot of reserve. Multi-positional.
1-111	Big Boar 'Mini' 6" long x 5-1/8" tall x 3-1/4" wide. This battery is for custom applications that have limited space. Starts larger engines but <b>does not</b> have a lot of reserve. Multi-positional.
1-112	6-1/5" long x 6-3/4" tall x 5" wide. 450 Cold crank amps.

### A. MOTORCYCLE JUMPER CABLE

The answer to starting that bike with a dead battery & no kick starter. This set of heavy duty cables measures over 5 feet long and is still compact enough to carry with you.

**97-5** Jumper cables. **SOLD EACH**

### B. YUASA AUTOMATIC BATTERY CHARGER

900mA Charger — most powerful available for this size charger. Peaks at 14.4V and then goes to float mode. Perfect for maintaining our Thunder Volt sealed batteries. 3-Light display tells you the charger status at a glance.

Fully automatic with reverse polarity protection — mistake proof. Will never overcharge your battery! Includes alligator clip and quick connect harness. This baby has it all!

**1-107** Yuasa 900mA automatic charger. **SOLD EACH**

### C. EZ CHARGER

New generation fail-safe automatic battery charger. New technology keeps the battery at full charge all winter long. Worry free. Just plug in. Won't cook your battery. Perfect for charging and holding full charge on batteries for motorcycles as well as automobiles, snowmobiles, jet skis and stand-by generators.

The EZ Charger is not just another "trickle charger." The EZ Charger is a solid state, automatic battery charger that is designed to charge 12V lead acid batteries to full charge and then to retain that full charge (unattended) for extended storage periods.

**1-102** EZ Charger; has two pigtails — one with alligator clips and another with rings.

**1-101** EZ Charger; has pigtail with rings. **SOLD EACH**
